Brasilia is a bold, large-scale geometric pattern designed by Kravitz Design. It can be hung straight across, flipped, or in several combinations to create different looks. Lenny and his team were inspired by Brazilian art and culture, especially the architecture of its namesake city. These classic handscreened shapes create a striking look in any space.

Mauvelous is a glamorous colorway with matte mauve and reflective copper Mylar shapes that will create a stylish space.

Kravitz Design is a conceptual creative studio founded by Lenny Kravitz in 2003. With a modern sensibility and a focus on interiors and graphic design, Kravitz Design's work always conveys a soulful elegance through a natural, relaxed sense of style.
