FLAVOR PAPER

Sebastian Wahl's Verdant Shrine features 25 unique collages made to emulate shrines that celebrate the surreal. The shrines are suspended amongst a backdrop of dense green foliage and appear to be floating out from behind the leaves. Each one offers its personal intentions of protection, love, prosperity and healing.

The digitally printed Lush colorway speaks to the deep layered greenery that creates the calm and natural background for the highly detailed, colorful shrines.

\*Please note that some objects featured in the artwork, like human anatomy, religious iconography and cigarettes, may be objectionable to some.

Digitally printed to order in the USA.
