CYCLOID

by Flavor Paper

Cycloid is without a doubt an eye-popping geometric! A Ted original, this pattern was born in the 1970's but still feels fresh today. The overlapping circles create amazing moire effects as you walk past it. You can print this as a two screen (see Radicchio) or a three screen. We can even print this in Day Glow ink for some extra punch. We love the impact that Cycloid makes in an interior!
