ÉLAN VITAL

by Ovando

Élan Vital is a modern interpretation of still life. Utilizing the incomparable floral arranging skills of Ovando, this atmospheric take on the classic work of art evokes a similar reproduction of inanimate flowers, but at a level of photographic detail captured by Skot Yobauje Photography that is stunning. Flavor Paper worked closely with Ovando to create and photograph dynamically shaped floral arrangements featuring a global selection of flora. While traditional still-life artists used to be limited to what was available locally, today we have access to an incredibly broad range of floral species, many are represented in Élan Vital.
