FEROZ

by Kravitz Design

Inspired by a shared love for Brazil, the Tropicalismo collaboration with the team over at Kravitz Design hit a high note on Feroz. The stylized jungle flora hides monkeys and Jaguars peering out from their natural habitat. Multiple overlapping transparent inks allow us to get a dozen distinct colors from only 4 screens with Jungle Fever, or use a combination of metallics and neutrals like Ore for urbane appeal. However this is printed for you, it will be a stunner!
