FRACTURE

by Flavor Paper

From our Inkling collection of modernized marbled murals, Fracture is created by blending and swirling water-based inks while adding a variety of metallic powders and glitter... and then photographing ethereal stills of the action. Fracture is also inspired by the Japanese tradition of Kintsugi pottery, in which the imperfections and cracks become the beautiful focal point of the image. The design is available in five eye-catching colorways, including: Burly, Malachite, Onyx, Pink Lighting, and Sodalite (above). Customization is also offered should you have another vibe in mind; just give us a shout.
