GREAT HALL

by Dan Funderburgh

Dan Funderburgh has made a name for himself in wallpaper with some of the most popular Flavor Paper prints including Great Hall, which was inspired by the collection at New York's Metropolitan Museum of Art and named after the institution's magnificent entry room.

"I've always loved the Metropolitan, so this design is an homage," said Funderburgh. "Great Hall is formally inspired by a sketch for a 16th century French furniture carving, but also includes silhouettes of art and design history assembled in ahistorical columns including African masks, Fredric Remington sculptures, Samurai armor, Tiffany lamps, The Pan of Rohallion, a Georgia O'Keefe cow skull, Jeff Koons balloon dogs, and a hippogriff."
