OFFICE BAROQUEN

by Dan Funderburgh

Office Baroquen is a Dan Funderburgh design, and what makes it brilliant (aside from his meticulous line work) is the concept behind it. Inspired by William Morris's philosophy of labor, Funderburgh wanted to elevate everyday office supplies to a more creative existence by wrapping them in a Baroque garden. His keen observations of the modern world, with cracked iPhones and bodega coffee cups, bring humor to the ornate flourishes and transport any desk space or office to the high renaissance.
